10th | CBSE | CGPA: **8.60 / 10.00**

PROJECTS

Face Recognition Attendance System   01 Mar, 2023 - 30 Apr, 2023

Key Skills: HTML   CSS   Django   Bootstrap

Smart Attendance Management System is an application developed for daily student attendance in colleges or schools. This project attempts to record attendance through face detection.
This System uses facial recognition technology to record the attendance through a high resolution digital camera/webcam that detects and recognizes faces and compare the recognize faces with students/known faces images stored in faces database.

AI Desktop Assistant   01 Feb, 2023 - 28 Feb, 2023

Key Skills: Python

It utilize natural language processing to comprehend and perform tasks provided in natural language by user.

Restaurant Management System   01 Jan, 2023 - 31 Jan, 2023

Key Skills: HTML   CSS   Javascript   Bootstrap

This restaurant management system website built with HTML and Bootstrap is designed to facilitate the smooth operation and organization of various aspects of a restaurant.
Here's a breakdown of key components commonly found in a restaurant management system website:
Responsive Design: The website is built using HTML and Bootstrap to ensure it is mobile-friendly and adapts to different screen sizes.
Menu Management: The system allows restaurant staff to update and manage the menu easily.
Reservation System: The website incorporates a reservation system that enables customers to book tables online.
Order Processing: Once a customer places an order, the system records and processes it accordingly.
